

Brainstorm a list of fish

Brainstorm a list of words
describing fish.

List all the different types
of animals that live in the sea.

Classify these into groups of those that have a backbone and those that swim with fins and breathe with gills

Which ones are fish?

Explain why most fish are dark on top and light coloured underneath

Look at sea animal shapes and
colours and
answer these questions:
which is the most common
what colours are most unusual
how are fish camouflaged
what are the different shapes
which is the most common
which are fast swimmers
which are slow swimmers
